

# Mentoring the HEARTS of Your Tweens & Teens

## THE PRAYER OF A *Mentor* MOM

Lord, please forgive me for grumbling about my responsibilities as a mom and forsaking the opportunities you provide to invest into the next generation.

Help me, God, to see my motherhood calling through new eyes as a mentor mom and as a mom who mentors.

Expand my understanding of what it means to train up my children and nurture them with your love, without a bitter spirit or resentment.

Reveal to me the amazing privilege of being a woman, a mom, and a mentor, who goes beyond meeting the basic needs of my children and seeks to cultivate their character with an eternal perspective.

Oh, Lord, help me to live as your disciple first and foremost, as I model for my children, and their friends, what it means to make you number one as I serve others from the overflow of you in my life.

For your glory!  
In Jesus' Name, Amen.
